

CrowdWisdomTrading Video Ads Agent

Intern position assessment

The document gives a brief introduction to an assignment to check your qualifications for the internship as the Marketing lead using AI agents. Please complete it on your own time and submit it for up to 1 week.

Project Overview

Create a backend Python project using Hermes agent framework that will generate video ads for crowdwisdomtrading

Technical Requirements

- Language: Python
- Framework: Hermes
- LLM Provider: [openrouter](#) or <https://build.nvidia.com/>
- [apify](#)- for data scraping (its free)

Project Scope

Develop the Hermes marketing agents team for crowdwisdomtrading.com:

1. Ads Manager Agent
 - a. search successful ads based on product and niche via apify (the meta ads is open there and you can search and find what's working...) and select the best working ads in the last 30 days (save results to json)
 - b. agents that extracts the marketing / pain / concepts from the working ads
2. Script Agent
 - a. Create a script for the ad based on each of the following (3 types):
 - i. identified pain
 - ii. our unique data (for unique data examples you can use [this](#) or [this](#) .
 - iii. how crowd wisdom can help your trading results
 - b. create a hook that will cause the user to stop on this ad.
3. Video Agent
 - a. generate a 30-60 sec. ad based on the above script using <https://github.com/calestio/OpenMontage> (preferred) or <https://github.com/heygen-com/hyperframes> or <https://leronx.org/>

<https://github.com/OpenCut-app/OpenCut>

Evaluation Criteria

- using kanban
- using loops and skills
- using telegram to chat with the agents

Submission by email gilad@crowdwisdomtrading.com

Submit the following:

- A link to your GitHub/GitLab repository.
- APIFY tokens used - must so we can rerun your code!
- A video output of the hermes kanban
- md output of the agents

Timeline

You will have **5 - 7 days** to complete this task. Please ensure you submit the deliverables by the end of this period.

We look forward to seeing your solution!

Thanks for applying!

Gilad
